

What teachers say about Newswise:

- ✓ "Newswise offers varied and appealing text topics, based on current events, and different types of exercises." (secondary school teacher, 1st to 3rd year)
- ✓ "Newswise is a good complement to the current English teaching methods and a nice way to do something different during the lessons. We also use Nieuwsbegrip, so the pupils are familiar with how the lessons work." (primary school teacher, class 7/8)
- ✓ "Pleasant variation. Reading comprehension is an important skill in the light of the exam." (secondary vocational school teacher, 3rd/4th year)
- ✓ "I would advise Newswise, because the assignments are nice and easy to implement. It also inspires you to think of assignments yourself." (secondary school teacher, 1st to 3rd year)
- ✓ "Newswise is a challenging way to offer extra English to pupils. Pupils learn to apply reading strategies in a foreign language. It provides an adequate preparation for secondary education. Especially for my pupils, who choose a bilingual secondary school." (primary school and advanced learning class teacher)
